The Law-Medicine Center at Case Western Reserve University School of Law has been in operation for more than 35 years. It began with a focus on forensic medicine, but that has broadened to include the whole range of legal, social, economic, scientific, and ethical issues in which law and medicine are interrelated. Besides the regular course offerings, the center frequently presents lectures, symposia, and workshops, and sponsors major conferences. Participants in the center's activities include not only university personnel, but also professionals from such institutions as the Cleveland Clinic and University Hospitals of Cleveland.
